17. Comprehension: Read the passage and answer the questions that follow. Reading books regularly is often seen as just a hobby, but its benefits go far beyond enjoyment. For students, reading works like an exercise for the mind. It improves understanding, builds vocabulary, and strengthens thinking skills. Unlike watching videos or scrolling on digital screens, reading needs full attention. It makes students think, understand ideas, judge information, and link different concepts together. Reading also helps students understand emotions better. By reading about different characters, cultures, and situations, they learn empathy and understand how people feel and behave. This helps them respond better in real-life situations. Books also train the mind to focus for longer periods, which is useful in today's world where distractions are common. Academically, regular reading improves writing and

speaking skills. Students who read more can express their thoughts more clearly and confidently. Beyond academics, reading encourages reflection and self-awareness. It gives students space to think independently. Thus, reading books regularly helps students grow not only in knowledge but also in maturity and meaningful communication. What does reading mainly help students with, besides entertainment?

- (a) Cooking skills
 (b) Sports ability
 (c) Physical strength
 (d) Intellectual growth [d]
